

SOLAREEDGE ALLIANCE PROGRAM – GENERAL TERMS AND CONDITIONS OF PARTICIPATION

The terms and conditions provided below are intended to set forth your rights as a member of our Alliance Program. Should you require any clarifications, please contact alliance@solaredge.com. Please note however that the Terms and Conditions governing the SolarEdge Alliance Program cannot be superseded or changed, unless modified in writing by SolarEdge Technologies.

1. General

The SolarEdge Alliance Program by SolarEdge Technologies Ltd. and its affiliates and subsidiaries ("SolarEdge") provides an opportunity for registered installers to accumulate points upon registration of a new installation of SolarEdge systems in the SolarEdge monitoring portal and in other instances as SolarEdge determines from time to time. Provided participation entitlement as set in art 2 below, participation in the SolarEdge Alliance Program is automatically granted to installers registering their systems in the cloud-based monitoring platform. Members may choose to close their membership at any time. In the SolarEdge Alliance Program, points can be accumulated for the registration of SolarEdge photovoltaic (PV) systems or other specific activities or services. Registered installations must be physically connected to the SolarEdge server and report telemetries within 2 months from the date of registration. The points accumulated can then be redeemed for attractive rewards. These General Terms and Conditions of Participation establish the rules for participation in the SolarEdge Alliance Program and the extent of the services to be provided by SolarEdge as part of this program.

By redeeming points for an award at the support tab in the SolarEdge cloud-based monitoring platform (<https://monitoring.solaredge.com/solaredge-web/p/home#support>), participants accept these Terms & Conditions of Participation. No other conditions established by participants shall apply, even if SolarEdge does not explicitly reject them. Insofar as this is required for legal or business reasons, SolarEdge reserves the right to change, enhance, delete or temporarily or permanently suspend individual gift tables, parts of gift tables or the entire web pages dealing with the SolarEdge Alliance Program. SolarEdge will inform participants sufficiently in advance. Participants have no claim to the availability of Alliance web pages or of data available herein.

2. Participation Entitlement

SolarEdge elects, in its sole discretion, where and when to activate ("Location Starting Date") or end a SolarEdge Alliance Program ("Program Termination Date").

At present, all PV system installation companies with a shipping address in the United States, Canada, the European Union, Israel and Australia are entitled to take part in the SolarEdge Alliance Program. We expect to open the program for all of our installers worldwide in the future. End customers, system owners, distributors, traders and competitors may not take part in the SolarEdge Alliance Program. SolarEdge is entitled to reject applicants unless restrictive legal provisions prevent it from doing so. Present Location Starting Dates: UK – May 29, 2012; Israel and North America – July 10, 2012; Europe – September 3, 2012; Australia – February 14, 2013 (each of them a Location Starting Date).

3. Registration

Only legally authorized representatives of the installation company are entitled to register. If a legal person registers, a natural person must be appointed to manage access to the SolarEdge Alliance Program. The appointed person must be authorized to manage the participant's data. By registering their SolarEdge installations, potential participants give their assurance that they are entitled to register and that all information supplied is correct. Participants undertake to provide prompt information of any changes to their registration data.

Only one registration account per participant may be held.

Management of the SolarEdge Alliance Program account, including point balance inquiries and point redemption is handled via the support tab in the SolarEdge cloud-based monitoring platform (<https://monitoring.solaredge.com/solaredge-web/p/home#support>). When registering a SolarEdge system installation for the first time, or when logging on to the cloud-based monitoring platform for the first time, each participant is given password-protected access. Participants undertake to treat user IDs and passwords in confidence and not to pass them on to unauthorized third parties. SolarEdge must be notified immediately of the loss or suspected misuse of login data. Should SolarEdge become aware of such matters, it is permitted to take the necessary countermeasures and, particularly in the case of misuse, to exclude the participant concerned from further use of the monitoring platform.

Correspondence, transactions and detailed information about the SolarEdge Alliance Program may be communicated online via www.solaredge.com/groups/alliance, by e-mail, by standard mail or by calling the SolarEdge support centers. Contact data and information about the Alliance Program will be given to participants when their registration is confirmed.

4. Alliance Account Number

During the registration process, a monitoring portal account number will be allocated to the participant and made available to the Alliance account administrator. The participant's employees who are not registered as administrators may also use this account number to register systems for the SolarEdge monitoring portal and Alliance Program.

5. Accumulating Points

Points are awarded for every kWp of a SolarEdge PV system purchased, installed and registered on the SolarEdge monitoring portal by participants as of the relevant Location Starting Date up and until the earlier of a participant's Expiration Date or a Program Termination Date. For this purpose, installation can be a new site or an increase in kWp at an existing site. Installation includes the combination of SolarEdge power optimizers and inverters. Replacement of inverters or power optimizers in an existing installation is excluded from the Alliance Program. SolarEdge systems installed prior to the relevant Location Starting Date but not yet registered in the monitoring portal are excluded from the Alliance Program.

The number of points accumulated depends on the watt size of the installation, as determined by the inverter's nameplate power rating. Beginning May 14, 2012 and until further notice, for every 1000 watts of power optimizers in which a SolarEdge inverter is also installed, fifteen (15) points are accumulated. For example: for a 50kW installation of SolarEdge power optimizers and SolarEdge inverters, the participant is awarded 750 points. The accumulation of points may change from time to time at the sole discretion of SolarEdge.

SolarEdge may also choose to award participants with points independent of registration of a new site installation, in its sole discretion as part of other promotional activities.

Credited points may be cancelled by SolarEdge if the participant breaches these Terms & Conditions of Participation, the conditions for the award of points no longer apply, points have been awarded by mistake, the participant has misused the system or circumstances are known to exist which would have ruled out the award of points had they been previously known.

A SolarEdge installation may only be registered once. If two different participants each claim to be entitled to register the same system, the participant entitled to register it shall be decided on the basis of evidence provided by the legal owner of the SolarEdge products in the form of a purchase invoice or the installation order.

Registration Methods

To register an installation, the serial number of the inverter should be registered via the site registration form of the Monitoring Portal.

Redeeming Points .6

Alliance Program points are credited to the participant's account and may be redeemed in exchange for the rewards available from SolarEdge as soon as the required number of points for the reward in question has been accumulated, up and until their Expiration Date. The availability of the rewards may vary. Individual rewards may also be unavailable at certain times or generally. There is therefore no legal entitlement to a specific reward from the selection

. The currently available rewards can be viewed at www.solaredge.com/groups/alliance

Rewards are region specific (UK, North America, Israel, Netherlands, Rest of Europe and Australia). SolarEdge reserves the right to decide which countries will participate in the Alliance Program. Installers may only choose a reward based on the region where they have a valid shipping address. If an installer's country is not listed, an email may be sent to join the Alliance Program to: alliance@solaredge.com. Shipping of rewards, however, is only permitted if the installer's shipping address is in the participating countries. Rewards must be ordered from the table relevant to the country of the shipping address

The rewards shipped are brand new and SolarEdge shall bear no liability for the rewards. In the event of a defect with a reward sent, Participant may send an email to alliance@solaredge.com reporting the problem and it is within SolarEdge's rights to decide whether to place the participant and the supplier in contact in order to replace the reward

Accumulated points are non-transferrable. Rewards may not be exchanged and the accumulated points may not be exchanged for cash

Expiration of the Points/ End/Termination of the Bonus Program .7

Points accumulated and credited to a participant's account for a certain calendar year, shall expire two years following the end of that calendar year (the "Expiration Date") (for illustration purpose only, points accumulated during (year 2015 shall expire on June 1st, 2017

If the Alliance Program is terminated ("Program Termination Date"), SolarEdge shall inform participants at least three months in advance to enable them to redeem their points. Unredeemed points expire six months from the end of the Alliance Program

Participants may terminate participation in the Alliance Program at any time. In such cases, SolarEdge will

deactivate the participant's Alliance account. Points that have been accumulated must be redeemed in exchange for rewards before the account is closed; otherwise they expire. There is no entitlement to redeem the points in exchange for rewards at a later date.

SolarEdge reserves the right to deactivate accounts of participants who do not use their Alliance account for a period of 24 months. Participants will be informed in advance of deactivation. A participant can prevent an account from being deactivated by logging in.

8. Use Limitations

The SolarEdge Alliance Program and its accompanying web pages have been developed by SolarEdge and are protected by copyright laws. SolarEdge holds all use and distribution rights. Participants may only use and exploit the information and results of this service within the framework of these Terms & Conditions of Participation. They may process this information for their own purposes only.

9. Communication

Upon verification of user compliance, newly registered installers will receive a confirmation email with confirmation of their qualification to join the SolarEdge Alliance Program. A quarterly email will be sent with a point balance and other relevant information and updates, including marketing materials.

Users may choose at any point of time to unsubscribe from the quarterly points status email, without it having any effect on their Alliance Program rights.

10. Disclaimer

SolarEdge assumes no responsibility for the accuracy, correctness, completeness or quality of the information, documents and displayed details on the Appliance Program web pages. SolarEdge assumes no responsibility for any errors or omissions in the specified information to which reference is made or which are linked to it. All liability claims against SolarEdge relating to damages of material or immaterial nature, which were caused by the use or non-use of the provided information or due to the use of erroneous or incomplete information, are excluded provided that no intentional or grossly negligent culpability exists on the part of SolarEdge. This applies in particular to damages arising from loss of use, data loss or loss of revenue. Liability for data loss is limited to the typical cost of recovering the data which would be incurred if regular backups appropriate to the risk are made, unless an intentional or grossly negligent act has been committed by SolarEdge. The user bears sole responsibility for checking the content of the results of the use of the SolarEdge Alliance Program and its suitability for the intended purpose.

11. Data Privacy Policy

Use of this program is covered by the SolarEdge privacy policy. The provisions contained therein thus form part of these Terms & Conditions of Participation.

12. Applicable Law, Place of Jurisdiction

These Terms & Conditions of Participation are subject to the laws of the State of Israel. The place of jurisdiction for all disputes arising from these Terms & Conditions of Participation is the District Court of Tel Aviv, Israel.

13. Severability Clause

Should parts or individual formulations of these Terms & Conditions not, no longer, or not fully comply with applicable law, this shall have no effect on the remaining parts in terms of their content or validity. The ineffective provision shall be replaced with a regulation to be determined by means of interpretation, which comes as close as possible to the financially and actually intended regulation in a legally effective way.

14. Revision and Update of Terms

SolarEdge may revise the Terms at any time without notice by updating this Site. All updates to the Terms will be posted on this page. You are bound by any revisions or updates. You should periodically visit these Terms to review the current terms that apply to your use of our Site.

Last update: August 2015.
